The four eyes principle is a requirement that two individuals review and approve some action before it can be taken. In a business context, the two individuals are often the CEO and the CFO. However, the principle can be applied to decisions at all levels and in a wide variety of environments. The four eyes principle is sometimes called the two-man rule or the two-person rule.

What is the Revenue Recognition Principle? The revenue recognition principle states that one should only record revenue when it has been earned, not when the related cash is collected. For example, a snow plowing service completes the plowing of a company's parking lot for its standard fee of \$100.

Perhaps the most important principle of training (that ironically doesn't have it's own letter in the FITT principle) is rest. Exercising too frequently and too intensely hinders the body's ability to recover and adapt. As a rule of thumb, the harder you train, the more recovery you should allow for.
