For several days now, Amazon's Echo Spot has been unavailable to buy. First the Amazon listing showed the Spot as temporarily out of stock, then we noticed it was no longer being promoted on any of Amazon's Echo device pages.. Amazon's PR told us this was due to the product selling out, owing to "incredibly positive" customer response.

How to Connect Amazon Echo to Mobile Hotspot

When I got my echo spot I really liked it but then for some reason it started flickering and I tried everything. Dimming the display, getting a new power supply and factory resetting it. So I really hope someone can come up with an answer for it. - Amazon Echo Spot

Why is my echo spot flickering? - Amazon Echo Spot - iFixit

The Echo Spot appears to have a problem. Multiple owners of Amazon's smart alarm clock with a screen, which turns two this month, are complaining that the screen on the \$129.99 device has started flickering. Unluckily for some, the flickering started just after the device's 12-month warranty expired. BBC News picked up on the issue, saying it has seen dozens of complaints, and pointing out that ...
