A substation is having the following loads: Type of load Max. demand (kW) Diversity of group Demand factor Domestic 1500 1.2 0.8 Commercial 2000 1.1 0.9 Industrial 10,000 1.25 1 If the overall system diversity factor is 1.35, determine (i) the maximum demand and (ii) connected load of each type.

(PPT) Substation Solved Problems | Jerome Dela Paz ...

A renewable electricity generation technology harnesses a naturally existing energy flux, such as wind, sun, heat, or tides, and converts that flux to electricity. Natural phenomena have varying time constants, cycles, and energy densities. To tap these sources of energy, renewable electricity generation technologies must be located where the natural energy flux occurs, unlike conventional ...
