35 Best Photography Books You Should Read (Top Picks 2021)

This classic book from a noted photographer of the American west uses a collection of poetic, original essays to delve into the essence of the art of photography. Robert Adams helps photographers think about not just what they want to shoot, but why they want to shoot it - what message are they hoping to communicate through their work?

The 20 Best Photography Books of All Time

Against Interpretation is a collection of essays by Susan Sontag published in 1966. It includes some of Sontag's best-known works, including "On Style," and the eponymous essay "Against Interpretation." In the latter, Sontag argues that the new approach to criticism and aesthetics neglects the sensuous impact and novelty of art, instead fitting works into predetermined intellectual ...

This groundbreaking critique of photography should be required reading for every photography student. In six essays that were originally published serially in the New York Review of Books, 'On Photography' delves into the meaning and purpose of a photograph. While it might be light on technique, it's heavy on philosophy and passion.
