This Owner's Manual is the universal-purpose version for the models of dehumidifier manufactured by our Co. The appearance of the units that you purchase might be slightly different from the ones described in the Manual, but it does not affect your proper operations and usage.

### **DEHUMIDIFIER OWNER'S MANUAL**

A dehumidifier is an air conditioning device which reduces and maintains the level of humidity in the air. This is done usually for health or comfort reasons, or to eliminate musty odor and to prevent the growth of mildew by extracting water from the air. It can be used for household, commercial, or industrial applications.

When unpacking the unit and removing the shipping tape, make sure to keep the bucket in place. Check the internal bucket to ensure the float switch isn't dislodged (refer to the instruction manual). When first using your dehumidifier, set the RH level to the driest (highest) setting possible to stabilize the room's humidity.
