445-2-H, Occupational Safety and Health Program ...

A polespear (hand spear or gidgee) is an underwater tool used in spearfishing, consisting of a pole, a spear tip, and a rubber loop. Polespears are often mistakenly called Hawaiian slings, but the tools differ. A Hawaiian sling is akin to a slingshot or an underwater bow and arrow, since the spear and the propelling device are separate, while a polespear has the sling (rubber loop) attached to ...

Polespear - Wikipedia

This is a physically demanding position often involving backpack, mobile-probe electrofishing, or boom shocking with large and small watercraft, setting and pulling gill nets, trap nets, hoop nets, or seines accessing with boat or by personally hauling gear into slick, muddy or uneven terrain.

History. Japanese tradition holds that the practice of ama may be 2,000 years old. Traditionally, and even as recently as the 1960s, ama dived wearing only a loincloth. Even in modern times, ama dive without scuba gear or air tanks, making them a traditional sort of free-diver. Records of female pearl divers, or ama, date back as early as AD 927 in Japan's Heian period.

Ama (diving) - Wikipedia

Management also includes monitoring fish populations and angler harvest by conducting electrofishing, netting, and creel censuses. An important service to anglers is the construction and maintenance of facilities such as shoreline fishing areas and boat ramps at piers and parking areas.

Table of Contents - Occupational Health and Safety Regulation

Electrofishing numbers of largemouth bass have trended down the last five years but there's still good numbers of fish, mostly in the 12-15 inch range. In 2018, catfish hoop net surveys produced a catch rate of channel catfish that was three times the statewide average and the highest in central Ohio.

Fishing Reports and Forecasts - Ohio Department of Natural ...

Rule 3.1 Jurisdiction. – The Department, through the Bureau of Fisheries and Aquatic Resources (BFAR), in cooperation with concerned national agencies, shall have the responsibility and jurisdiction in the management, conservation, development, protection, utilization, and disposition of all fisheries and aquatic resources of the country, except municipal waters.

BFAR On-Line Information System

Training on Electrofishing: Electrofishing is an effective and productive field method for documenting fish species in shallow, slow flowing water when implemented properly. Adequate training and safety measures are important in order to operate the electro-fisher safely and efficiently.
