history of Europe, history of European peoples and cultures from prehistoric times to the present. Europe is a more ambiguous term than most geographic expressions. Its etymology is doubtful, as is the physical extent of the area it designates. Its western frontiers seem clearly defined by its coastline, yet the position of the British Isles remains equivocal.

First published in 2000, Dipesh Chakrabarty's influential Provincializing Europe addresses the mythical figure of Europe that is often taken to be the original site of modernity in many histories of capitalist transition in non-Western countries. This imaginary Europe, Dipesh Chakrabarty argues, is built into the social sciences.
