3rd Grade Math Worksheets - Math Salamanders

Where do you need or use exponents in everyday life? Exponents are simply a shorthand notation for multiplying the same number by itself several times – and in everyday life you just don't often need that, because it doesn't occur that often that you'd need to calculate $7 \times 7 \times 7 \times 7$ (which is 7^4) or $0.1 \times 0.1 \times 0.1 \times 0.1 \dots$

Where do you need exponents in everyday life?

Calculating area is not only a key skill for geometry. It's also a math skill we use in everyday life! With activities suited for first to fifth grade, our collection of area worksheets help students understand the concept of area and how to measure it using their counting and multiplication skills.
