Rather, slow down. Read every word. After all, Prose reminds us, words are the "raw material" from which literature is crafted. At the end of the day, good writing depends on a writer's a skill in choosing one word instead of another.

How to Learn to Write by Reading
1. Begin with the alphabet. The alphabet is where reading begins. The 26 letters that make up the English alphabet are used to form all of the words in the English language, so this is the place to start. There are several ways to get familiar with the alphabet; pick the one that suits you and your learning style.

4 Ways to Teach Yourself to Read - wikiHow

Read&Write Literacy Software | Texthelp
Use the function open ("filename","w+") to create a file. The + tells the python interpreter to open file with read and write permissions. To append data to an existing file use the command open ("Filename", " a ") Use the read function to read the ENTIRE contents of a file.

Python File Handling: Create, Open, Append, Read, Write
The modes are: 'r' – Read mode which is used when the file is only being read 'w' – Write mode which is used to edit and write new information to the file (any existing files with the same name will be erased when this mode is activated) 'a' – Append mode, which is used to add new data to the end of the file; that is new information is automatically amended to the end

Reading and Writing Files in Python - PythonForBeginners.com
Work on one subject at a time, and don't spend time learning how to speak Japanese if your goal is to read and write it quickly. The quickest way to write Japanese is to memorize the hiragana script and study the katakana script. Write using a combination of hiragana and katakana characters, and use kanji only when necessary.
