The Nintendo 64 (abbreviated as N64) is a home video game console developed by Nintendo. The successor to the Super Nintendo Entertainment System, it was released on June 23, 1996 in Japan, on September 29, 1996 in North America, and March 1, 1997 in Europe and Australia. It was the last major home console to use cartridges as its primary storage format until the Nintendo Switch in 2017.

Although many factors affect the investment of individual households in renewable energy sources, we highlight one of them: the local spatial development plan. It is one of the planning tools for implementing development policies at the local level. Since it is on the basis of local spatial plans that investments are carried out on the ground, their role in the implementation of renewable ...
