### H20 Nissan Timing Chain - Forklift Engine Parts

You need the marker on the timing belt cover to get the correct timing. Without the marks, you would have to remove the pulley to check the crank pulley timing mark for TDC and then make your mark on the cover. On the pulley, the first mark on the left of pulley is 0 with increment of 5 degrees. Ignition timing should be 10-14 degrees at 650-800 rpm.
