The major drawback to SIM Card Reader

Download Free Sunpak Sim Reader Software

is that it works exclusively with USB card readers, and so it can't sync with ActiveSync or other similar programs. In addition, you also have to know your SIM card's format (PS/SC, or Phoenix), and in case you don't know which one it is, all you have to do is get in contact with the software creator, and they'll let you know.
