Should math and science be compulsory? | Debate.org

Access Free Why Math Must Replace Science Mike Hockney

Mathematics is certainly a science in the broad sense of "systematic and formulated knowledge", but most people use "science" to refer only to the natural sciences. Since mathematics provides the language in which the natural sciences aspire to describe and analyse the universe, there is a natural link between mathematics and the natural

Wilson is a noted author so he clearly has high verbal ability. However, what he revealed in the passage above is that he also has high spatial ability.

Access Free Why Math Must Replace Science Mike Hockney

Therefore, it is probably reasonable to conclude that he has higher verbal and spatial ability, and a relatively lower level of math ability. Hence he concludes that math ability is not necessary for success in science, because he personally did not feel that he relied on it for success.
