plant cell, the basic unit of all plants. Plant cells, like animal cells, are eukaryotic, meaning they have a membrane-bound nucleus and organelles. The following is a brief survey of some of the major characteristics of plant cells. For a more in-depth discussion of cells, see cell. Unlike animal cells,

plant cells have a cell wall surrounding the cell membrane.

With the combination of the HX711, it is able to get measurable data out from a load cell and strain gauge. To use a load cell, you will have to first calibrate it where you can increase or decrease the calibration factor units to get your correct weight using a microcontroller or microprocessor. Load Cells come in many shapes and sizes!
