Chapter summary Introduction. The Industrial Revolution and its consequences have been a disaster for the human race. Industry and technology have caused physical suffering in the third world, and psychological suffering everywhere. We are increasingly losing our ability to have real choices or make real achievements.

A Summary of "Industrial Society and its Future"

Many in the church, lost or saved, want a costless Christianity. Few are willing to take up their cross to follow Christ. So they are willfully ignoring the rise of totalitarianism and its persecution of the church, believing that if they don't speak out, but keep smiling, the world will join

A number of diseases are spreading. The hearts of many people are gripped by fear and desperation, even in the so-called rich countries. The joy of living frequently fades, lack of respect for others and violence are on the rise, and inequality is increasingly evident. It is a struggle to live and, often, to live with precious little dignity.
