Changing File Ownership. This section describes how to change the ownership and group ownership of a file. By default, the owner cannot use the chown command to change the owner of a file or directory. However, you can enable the owner to use the chown command by adding the following line to the system's /etc/system file and rebooting the system.

Solaris VII, the "Game World", is known across the galaxy for its 'Mech fights. Gamblers place exorbitant amounts of money on longshot bets, and fortunes are won and lost daily. Solaris City, in particular, hosts six major arenas and numerous MechWarrior stables. Every year there is a Grand Tournament, which culminates with the naming of the year's champion (notable champions include Gray ...

This tutorial is written to help people understand some of the basics of shell script programming (aka shell scripting), and hopefully to introduce some of the possibilities of simple but powerful programming available under the Bourne shell. As such, it has been written as a basis for one-on-one or group tutorials and exercises, and as a reference for subsequent use.

The Shell Scripting Tutorial
